

A SUMMARY OF THE EXAMINER INTERVIEW

Applicants thank Examiner Rayyan for conducting a telephonic interview on October 6, 2009. Applicants' representative discussed the differences between the amended claims and the references cited in support of the 35 U.S.C. § 103 rejection. Specifically, we discussed features found in currently amended claims 1 and 10. These are not found in the cited references. The Examiner indicated that the amendments would help clarify distinctions between the claimed invention and the cited references.
